

# Adobe Creative Cloud Migration Support Program for Education

Adobe and AFTIA have partnered to offer complimentary migration support for education customers moving from Creative Cloud for teams to Creative Cloud Pro Plus. This program is available to all Creative Cloud for teams education customers with no minimum license requirement, at no cost – whether they're actively evaluating the move or have recently purchased and need help completing their setup.

## What happens in a session?

**One hour. Hands-on. Tailored to your customer.**

- Environment review: assessment of the customer's current technical setup and deployment model
- Technical guidance on migration options: helping the customer's team understand what's involved and move forward at their own pace
- Live, hands-on, step-by-step guidance tailored to where the customer is in their migration journey
- Demo (where applicable): Creative Cloud Pro Plus overview, credit management, and third-party AI model configuration

Following each session, AFTIA will provide a brief session summary to the referring partner upon request. AFTIA will not retain or re-engage the customer after the session – the partner relationship remains yours.

## How it works

### Step 1

#### You share the link.

Share the booking link with customers considering or moving to Creative Cloud Pro Plus.  
*Partners are welcome to book on behalf of their customer and join the session.*

### Step 2

#### Customer books.

Customer selects their region and books directly via the AFTIA booking page.  
*Session confirmed instantly based on availability.*

### Step 3

#### AFTIA delivers.

An AFTIA consultant conducts a 60-minute session with tailored guidance.

### Step 4

#### Customer migrates.

Customer moves forward with confidence. You retain the relationship.

## Availability by region

### North America

Sessions during NA business hours

### Australia & New Zealand

Sessions during AU & NZ business hours

### Europe

Sessions during UK business hours
