A powerfully simple turnkey email security
solution for your customers

The Challenge

Your customers are overwhelmed by phishing attacks and need help. You need a turnkey solution that is fast to implement and easy to manage from a straightforward, multi-tenant dashboard. Simply put, all email security solutions are not equal, and customers using cloud-based email from providers like Microsoft and Google need a cloud-first, AI-driven email security solution to keep up with today's phishing threats.

Phishing attacks are the biggest cyber security threat your customers are facing today. The IRONSCALES powerfully simple email security platform is the perfect addition to your security solution portfolio. Our self-learning, AI-driven email security platform continuously detects and remediates advanced threats like BEC, credential harvesting, account takeover and more in your customers' mailboxes.

"For us, it's important that we're selling and enabling our customers with the right products, bringing the right value, and not necessarily breaking the bank along the way. And I think IRONSCALES has been a great decision for us to go to market with our customers from that perspective."
