Climb Channel Solutions Announces North American Partnership with Seclore

Eatontown, NJ (November 5, 2025) – Climb Channel Solutions, an international specialty technology distributor and wholly owned subsidiary of Climb Global Solutions, Inc. (NASDAQ: CLMB) announced the launch of their partnership with Seclore, a data security software vendor.

Seclore's data-centric security platform delivers granular access controls, persistent data protection, and seamless integration with enterprise systems. The partnership equips Climb partners, including MSPs and resellers, with a powerful solution to secure sensitive information wherever it travels.

Seclore is proud to announce a strategic distribution partnership with **Climb Channel Solutions**, a leading global IT channel distributor. Through this alliance, Climb will bring Seclore's industry-leading data-centric security platform to its extensive ecosystem of resellers, MSPs, and VARs, expanding access to advanced data protection across industries. The partnership combines Seclore's innovation in data security with Climb's proven channel expertise to drive growth, enablement, and market acceleration. Together, we will empower partners to deliver unmatched value to customers seeking to secure and govern sensitive data—wherever it travels.

"Our partnership with Climb Channel Solutions is a deliberate step in expanding Seclore's data-centric security leadership across the broader partner ecosystem," said Justin Endres, Chief Revenue Officer at Seclore. "Climb's proven expertise in enabling partners and driving growth aligns with our channel-first vision. Together, we're equipping resellers with the tools and intelligence they need to differentiate, capture new opportunities, and deliver the next generation of enterprise data protection."

"Our collaboration with Seclore marks a significant step in expanding our data security offerings," said Dale Foster, CEO at Climb. "As organizations face growing challenges in protecting sensitive information, Seclore's innovative approach to securing data at the file level gives our partners a competitive edge. We're excited to support them with solutions that are both forward-looking and practical."
